

ATAR EXAM PREPARATION

ATARget's Master Classes will deliver a comprehensive exam preparation program that will assist year 11 and 12 students in preparing for their final school examinations. This program will focus on specific exam questions and explain in detail how the syllabus content can be employed to construct successful examination responses. These classes offer students a structured revision program that will add value to the independent study they are doing at home.

A SUCCESSFUL PROGRAM

All students attending our Exam Preparation Programs report that they feel more confident in tackling the demanding schedule of the examination period.

Some students find it very difficult to sustain an independent study program. These Master Classes offer them a structured way to comprehensively prepare for their exams.

PREPARE TO DO BETTER.

A six hour program over three weeks that delivers a structured revision program for students, including substantial modelling of answers to exam style questions. This is a great opportunity for a final consolidation and extension of the information students have learned before ATAR exams commence.
