

APRIL REVISION PROGRAM

THIS PROGRAM INCLUDES:

Study Skills: This program contains four hours of teaching broken up into one hour a day for the four days. It focuses on units such as exam techniques, stress management, goal setting and time management.

Essay Writing: The essay writing program consists of four hours of teaching broken up into one hour a day for the four days. It re-teaches students the structure of a critical essay and reinforces the importance of constructing a sound thesis and topic sentences, and revises how to include evidence to justify these claims.

Subject Revision: These classes consist of eight hours of teaching broken up into two hours a day for the four days. The program consists of re-teaching and revision, and is designed to reveal to students how the work they have learnt in term 1 will be assessed in first semester exams.

EXAM PREPARATION

The classes focus on specific topic revision followed by a discussion on how this material is assessed in exam style questions.

There is sufficient time within the eight hours for teachers to model how to answer exam questions successfully as well as time for students to independently practice constructing their own answers. All our senior school teachers have significant marking experience and know what needs to be addressed to ensure students success in exams.

F.A.Q

How can students be assured that what they have learnt at school will be addressed in the ATARget Program? The answer to this important question is really quite simple.

- ✓ The foundation of our revision classes is the Western Australian curriculum which is the same syllabus guidelines used by the school.
- ✓ ATARget keep their classes small which allows students access to more one-on-one time with their teacher.
- ✓ We also send out a questionnaire to all families participating in the program before the classes begin, to find out exactly what topics and texts students have been studying, and this information is forwarded to the ATARget teachers for inclusion in their programs.
- ✓ This questionnaire also asks families to alert us of any specific weaknesses in the student's knowledge that may have been identified by the school or the student so that specific area can be re-taught by the ATARget teacher.
